Do Not Go Quietly Unto Your Grave

Morphine

Listen young people I'm 74
And I plan to live 60 or 70 more
Yeah I've been all around I've done a few things
And I spent a few nights on the floor ohDid everything wrong but I never got caught
So of course I would do it all over again
I surprised many people who'd written me off
Years ago, now they're way undergroundNobody asked me, but here's my advice
To a young man or woman who's living this life
In a world gone to hell where nobody's safe
Do not go quietly unto your grave
Do not go quietly unto your graveLearned a few tricks and I'll learn a few more
And I got enough bullets to fight a small warNobody asked me so here's my advice
To a young man or woman who's living this life
In a world gone to hell where nobody's safe
Do not go quietly unto your grave
Do not go quietly unto your grave
Do not go quietly unto your grave
...
