

Imagination

Chet Baker

Magic mirror come and search my heart
Can you tell me what you see
There's a thousand voices whispering
Songs and you're the melody So I imagine my heart with you
See what imagination can do
It's not hard to conceive
Love ecstasy imagining you with me Many, many days our shadows passed
Seeing visions of a new bright horizon
Set the morning light
And that morning light is you
So I imagine my heart with you See what imagination can do
It's not hard to conceive
love ecstasy imagining you, imagining me
The beauty we both can see
