Lean on Sheena

Avoid One Thing

did you
intimidate her
her mother says you wouldn't
let her use the phone
were you intoxicated
past the point of knowing
what was going onbetter yet don't forget
leave the keys on the tv set
hoping your gone from the corner bar
here we are
after dark
knocking back the makers mark
scrouging up a dollar from my buddy's car andlean on sheena
she leans on me alot
hold on
hold on
hold on to what you gotintimidator
how'd you make her feel worse
then she did before
heard you came back later
had the upstairs neighbors
banging on the floorbetter yet don't forget
leave the keys on the tv set
hoping your gone from the corner bar
here we are
after dark
knocking back the makers mark
scrouging up a dollar from my buddy's car andlean on sheena
she leans on me alot
hold on
hold on
hold on to what you got
