

London

Tim Stop

I packed my things and headed to London
I left my place without a goodbye
Across the world a new day is dawning
I wanna see it from the other side The pace of life has gotten so frantic
I need something to settle my mind
So I hopped a flight across the Atlantic
I wanna see it from the other side Oh, what they wanted, I want it
Oh, like they're haunted, I'm haunted
Oh, and it all remains the same
I wanna see it from the other side I'm gonna walk the hills of England
I wanna know what it was like
I wanna live the life the kings led
I wanna see the world through someone else's eyes Oh, what they wanted, I want it
Oh, like they're haunted, I'm haunted
Oh, and it all remains the same
I wanna see it from the other side I packed my things and headed to London
I left my place without a goodbye
Across the world a new day is dawning
I wanna see it from the other side Oh, what they wanted, I want it
Oh, like they're haunted, I'm haunted
Oh, and it all remains the same
I wanna see it from the other side
