Aqualeo

[Produced By Skytzo Beats]

[Acie High]
Paranormal activities cuz I'm knowing I'm throwed
Survived the strongest humidity I can flow in a stove
You didn't buy shit left me cold hoping I froze
So don't ride dick now that my fans are growing in groves
Aqualeans rise, come take this long walk with us
We travel the underground because the norm don't get us...
You loose as a clucker when you fucking with niggas
Cuz whoop whoop motherfuckers only fucking with spitters..
Tech taught me that, I'm set off of that, I wrecked all of that
You step talking that, heartless smack, ya neck off with it
Spark like a jet, it's mark get set
On those that slept hard like a narcoleptic on this architect...
Go long as the Great Wall raps I got plenty
Cut the legs off a general, fear, I don't have any
Lieutenant Dan Marino throwed off hard as a penny
Running around chumps in the forest with their Jenny's...
But fuck a bitch she disrespect me I'll film her
Put raw pics on the gram no need to check for a filter
And fuck yo raggedy labels I make the check I'm the builder
And fuck your fashions and labels I'll leave you naked and bewildered
I'm in this bitch, won't be long before they want the head of Acie
Long wind strong chin, we'll box until your legs are lazy
This is for all those that's thinking that my head is crazy...
You bring the beat back, imma bring back Edgar Casey...
Ya I'm outta there and so I don't play nice
Ye know not to save hoes and what he do, play Christ
Follow the biggest star in the east that gave him daylight
Got a southern son for North West unless she gone be gay dyke
Go left cuz they go deaf when you make 'em go stage right
I throw low blows cuz they hits are weak like a staged fight
Turn the scene to Vegas I'll just say Price
Stomp these niggas in Versace shirts and I'm punch hoes like Ray Rice
No iller than me, iller than killers in heat
Thriller up in the Manila spill and they kneel to a knee
In a villa with the vanilla Camillia the freak
Gave her the heavy D like Diddly Diddly Dee

Nigga my nigga you bigger bigger than figures and weed
You can't configure a realer picture than Jigga and B
Go get a lil scrilla you feel like gorilla you G
Oh yea you sicker you quicker slicker than Billy the D...
Won't give no man a second chance how is it I'm the 2nd man
My first attempt got hella views not to mention my second stance
Guess my counting wasted the backpackers time so the seconds ran
Off the clock is time that's forgot can't stop the second hand
Guess I need Armani cuz the clothes that wear is second hand
Here in my second life so a second heist or a second plan..
To still shine would be my strong move
Got the answers to step over these Tyronn Lue's...
Don't battle fate with Gods what's the matter Ray was ya boy
Won't pile up hate in my heart just pile up cake and destroy...
All these artist and get the farthest away from these frauds
Paddle the lakes with a squad and rattle these snakes with my voice
I'd rather wait and avoid who validates with awards
Saddle the horse until they have to play me my cards
Keep piling on roids until they have to say that I'm hard
Climb the ladder to mars until I'm miles away from the stars
And allocate bars until they salivate and applaud..
Then keep bleeding the mic till it develops to puss
Never satisfied searching for different levels to crush
You're what Stevie Wonder's eyes see, no better than us
Yea Ebony and Ivory, elephant tusk
Again I say I'm fucked up it happen in labor
Screws loose pick my nuts up and tighten a hater
I'm corrupt my luck sucks I can't do favors
Skipped town to china cuz I fucked up a flight in Malaysia
And now I'm missing...can't listen to ignorant niggas without a cost
Knowing they won't listen to me unless I get Guap with Ross
Confused culture everybody's lost
Grab the hugest Molotov and haul it off before they conjure up a holocaust
Probably lost a lot of you basic retainers
Racist complainers smoking some shit that's laced so your brain is
Replaced with your anus, shouldn't have left me in the basement with strangers
Far from complacent my anger leaves me adjacent to danger raising my finger
Middle style temperature of a middle child
On the roof looking for proof of Santa with my fiddle out
Instrumental to mental building when your born
Without the right utensils you'll get sinful children of the corn
Like me for example, give you some pee as a sample
Full of some weed that I sampled so you can see how to handle a fool
We're not big cuz we're not lambs like these clucks
A song hits and than that bitch is not around 3 months

Gotta muzzle these bitches and impound these mutts
Do it now don't wait till I die hologram these nuts...
There is no help for this sick earth
I'm Acie High and now Priceless gone shit on turds with his big words...

It's the return ... Of ... LU CYPHER

[Priceless]
I was Made from-
Destructive elements, fiery hell's resident
Devil is in the details, eloquence a prerequisite
Meaning I pay homage to what they say is demonic
Convey and relaying knowledge displaying LaVeyan conscious with ...
Polished grammar, college candor And a point of view -
To make you turn your back on the god you knew come and join the crew/
Of the, Satanic way manic niggas in face paint/
Who vacate like Malaysians and disappear without faint trace
I'm an elitist speak in speech with a peaked pitch
Leaving the weakest defeated sleeping knee deep in deep pits
Live my life on edge like standing next to a steep cliff
Im Heath Cliff, the lion that retire tyrants in cement /
Actors and rappers is gettin jizzed on -
Cause to be famous, entertainers give up their anus just to get on -
But, if that's their preference
Why feel the need to bludgeon or publicize their other side on tv out in the public's eyes/
Being mannish has vanished just like that plane did they plan it
The plans to keep you distracted so they can keep you inactive
They puttin people in caskets while Putin's people get shafted
It's hard to preach to the masses that's why I speak to em backwards
OwN arE Now decode it roll up a spliff and then blow it --
Buy a 4-5th and load it hold it then squeeze and explode it -
Start releasing emotion this beef gets deeper than oceans
That's why I keep giving notions that you gone reap what you sowing --
Cause ever since Crowley crowned me renowned sounding nouns drowned out these foul beings
Who crowd around schemes and frown like scowled fiends, cause I've disavowed the Turin shroud with loud screams -
Man of the cloth who is bound by now thing
Avatar status found touring out in shaolin
As stout as Yao Ming with clout like proud kings
Dodging those who pout and all the bouts that doubt brings -
They cut me off on Teambackpack so I had to back track
Got on the Snapchat and snapped back at all this wack rap --
Coming from fat black narc related and former incarcerated trap cats, turned actors now crap acts
They wonder how I match facts attack tracks and stack stacks
Easy when you that crack you attract fans in fat packs

Salute my JUGGALO's, the new rat pack it's called Aqualeo
A mix between fat pat and mad max and that's that --
I'm reppin Fort Hood got soldiers ties in rogue disguise --
Notarized cause I notice lies --
I might go postal kill and immobilize the local guys forever posterized in soldiers eyes as a global and a mobile spy
That pulverized, oversized poster guys who vocalize that his show for show coincides with what is bonafide -
Think I ain't posed to rise when my eye is open wide
And my sign polarized you know a nigga scope is live
Poet and devoted scribe, chosen to oppose the tide
Like Noah I'm a solar guide who's glow is like the soul of god -
Described as most divine, over time, put in overtime -
Cause I know the grind that's why my flow is so refined -
I spit the dopest rhymes, spoken over shrines
Quoted over chimes to overthrow the motives of the slow and blind
So if your slow, rewind obviously you're so behind
Crazy how thought provoking showmen could go and blow ya mind -
See I'm something like a Harvard nigga, I'm smarter nigga
Cause I had a father figure
Corporations won't sponsor this cause it can't alter your consciousness
That's why I skipped over continents to deliver common sense -
They won't sponsor this cause it can alter your consciousness
That's why I skipped over continents to deliver common sense
