

Let Me

Mista Roe

Why worry about yesterday when it's water under the bridge
But I just can't keep it in
I decided starting today that it's one life to live
And you get out what you put in
Even though it feels like we done been through it all
I don't wanna put myself through no withdrawal
So I'm, I'ma try to make it better, but it won't work if you never
Decide that you gone let your, let your guard down
We'll turn this thing into a fairytale love if you let me
Promise to never put no-one before you if you let me
I'll be your knight in shining armor
I'll go to battle to protect what we have
Put a forever ring on your hand and love you for eternity
If you, if you let me... if you let me
You're my diamond in the rough
If you fall I'll pick you up, and I'll polish you back up
And if by chance that ain't enough
Then I'll just put this whole song on replay
Anything to let you know baby
That I'm really, really into... It ain't bout the physical (you know)
You know that I will never leave you alone
I'ma stay right here if you let me
If, If, If, If
You, You, You, You
Let, Let, Let me...
If you let me, let me

(Repeats)and ad-libs until song fades
