

# Blindfold

## Delirious?

Take this blindfold off of me  
I'm walking but I cannot see  
Mysteries fly at my feet  
The answers come with no relief Broken shoes won't get you far  
Climb on my back, I'll carry you afar  
Words just feel anesthetized  
But hope is found within the lies And I keep walking down that road  
And I keep running down that road Take this blindfold off of me  
I'm crawling, grabbing, breathing for the way I can see  
Hold me, take me, run with me  
I know you'll ignite a battered flame that once was bright And I keep walking down that road  
And I keep running down that road  
And I, I keep running down that road  
And I, I keep running down, keep running down that road  
Keep walking down that road All there is to say  
Glory, glory  
Glory in the highest Keep walking down that road Glory, glory  
Glory in the highest  
Glory, glory, glory
