Kokane

Kirna

My name is Kokane
I will mess up your brain
If you know all what I know you
Flash me down the drain
Flash me down the drain

I make you high just for a minute
Tell your friends that you hate in it
With lie and live you see that you bin
Sorry that you take me
Up where you love it

You don't feel me
I don't feel you
You make me bigger and better then you
I make you feel good for a minute of two
But after that ajam come with you

Ajam turning the riching before
Turn I put you put you calling a whore
Sella coming and sleep on the floor
And you get subjects how you get some more

My name is Kokane
I will mess up your brain
If you know all what i know you
Flash me down the drain (2x)

I get a litle snif here
And a litle snif there
It's a while and mo jest
In the bronx niggers yeah

Ti la la la la la bom bom ti lei
