

What The Stars Have Eaten

Deadboy & The Elephantmen

All we have lost, the stars have eaten
All that dies begins again
Tears you've shed, the earth has gained
Buried beneath the sky
So strange, it cannot be explained
In this light, I see your spirit
Listen, maybe we can hear it
All we have lost the stars have eaten
All that dies begins again
Innocent magic
Is stronger than evil
Innocent magic [x2]
Innocent magic
Is stronger than evil
Innocent magic [x2]
All we have lost, the stars have eaten
All that dies begins again

Tears have shed, the earth is regained
Buried beneath the sky
So strange, it cannot be explained
In this light, I see your spirit
Listen, maybe we can hear it
All we have lost the stars have eaten
All that dies begins again
Innocent magic
Is stronger than evil
Innocent magic [x2]
Innocent magic
Is stronger than evil
Innocent magic [x2]
Innocent magic
Is stronger than evil
Innocent magic [x2]
Innocent magic
Is stronger than evil
Innocent magic [x2]
