

# Dream Worker (Extended Version)

## Hawkwind

I have come.  
But I do not choose now,  
to do what I came to do.  
Navigation Computer report:  
Orbital status now maintained.  
Target zone vectors logged in.  
The Tube is now ready.  
Please swallow the blue Dreamer  
and place the helmet on your head.  
Can you hear the lights approaching?  
There's a sudden rush of sound  
You laugh but no-one's joking  
The Dreamer's turned you round  
And now there's no distraction  
You've slipped the noose of fate  
Your dreams are all in colour  
You've reached your future state  
You've reached your future state  
You've reached your future state...
