I'm laughing just under the bright sunny spot
I was longing much to you
And Why it is shining strongly enough to return not time (when) is
It Oh also clean now but
Words that do not reach to the reach likely
The Tsuyoga~tsu been hidden tears
It also This is also everything I blame me
One more time that when that place
Laughing you if there is a line of sight
It easygoing and Nante something happen
Returning to the time that I thought
Both also place song Your liked movie
Remember so all all
If you were accustomed to your ideal
Way back we walked asked now shoulder
How do you look back doing
I'm wondering every time you look for your voice can not reach
But now Oh
To surging bitter and suites
The back of the chest to be grabbed
Alarm clock do not still sound
And show me the dream that does not end much
Quickly season changes
And since become a mood that was Ika put
