

Gotta Get You Near Me Blues

Buddy Holly

Tonight I'm so blue, thinking of you I've got those gotta get you near me blues?
So hurry here to me, darling can't you see
I've got those gotta get you near me blues? Have you ever had this feeling that I've been speaking of
To be so far away from the one that you love
So hurry here to me, darling can't you see I've got those gotta get you near me blues?
Gonna head it on back to our country home
I've got those gotta get you near me blues?
