

# Great Idea

Josh Kelley

My, oh my, how long it's been  
You look just like you did back then  
All we need is a sunset  
Springsteen and an old Chevette We're right back on that riverbank  
Down a long dirt road on an empty tank  
Our first love, first anything  
And that moon saw everything Does it take you back?  
Say, baby, does it make you think? Is that a good memory or a great idea?  
Do we just reminisce or get out of here?  
Back to when you called me baby  
Slow and softly in my ear  
Is that a good memory or a great idea?  
Is that a great idea? I can see your bedroom window now  
Easin' up and you sneakin' out  
Scared to death of your old man  
If he'd have caught us, we'd both be dead It ain't no doubt you looked real fine  
As I recall, you weren't real shy  
Tank top and cutoff jeans  
You knew how to get to me Does it take you back?  
Tell me, baby, does it make you think? Is that a good memory or a great idea?  
Do we just reminisce or get out of here?  
Back to when you called me baby  
Slow and softly in my ear  
Is that a good memory or a great idea? First anything  
First everything  
Alright Is that a good memory or a great idea?  
Do we just reminisce or get out of here?  
Back to when you called me baby  
Slow and softly in my ear Is that a good memory or a great idea?  
Do we just reminisce or get out of here?  
Back to when you called me baby  
Slow and softly in my ear  
Is that a good memory or a great idea?  
Is that a good memory or a great idea? It's a great idea  
Come on, take my hand, little baby  
It's a great idea
