

# Well Well Well

## Love Spit Love

This little piggy's got more than anybody's got  
He's been stuck dumb struck, what about me?  
Mirror man, mirror me, dumb dummy can't see  
He's walking in my sleep, what about me? Well well  
Goodnight valentine, I never saw the sun shine  
Goodbye good times, what about me?  
Good times never stop, times turning tic toc  
You've got more than I've got, What about me?(Well well)  
You could be standing  
(Well well well)  
In my feet(Well well well)  
You could be walking  
(Well well well)  
In my sleep  
(Well well well)This is the time to stop  
Consider it all  
And this is the time to live  
I'll wait 'til you call Well well well  
Well well  
Well well well Mirror man, mirror me, dumb dummy can't see  
He's walking in my sleep, what about me?(Well well)  
You could be standing  
(Well well well)  
In my feet(Well well well)  
You could be walking  
(Well well well)  
In my sleep(Well well well)  
You could be standing  
(Well well well)  
In my feet(Well well well)  
You could be walking  
(Well well well)  
In my sleep Well well well  
Well well  
Well well well  
Well well  
Well well well
