Breathing Underwater

dj steveboy

There's a light in the dark where the sky splits apart
Where the stars find a way to shine through all the spaces in between
Here we are face to face all alone in this place
And the night is finally coming down to you and me
Tell me where you been hiding? Oh, I wanna know
You're my silver lining covered in gold
Tell me what am I feeling? Well, it's hard to explain
Like underwater breathing, swimming in rain
Oh, oh, all I really wanna do, do
Is fall a little deeper with you, you
Never come up
Breathing, breathing underwater
Weightless with every little kiss you steal, boy
You are making me feel, feel
Like I'm breathing
Breathing, breathing underwater
Wanna fly through the blue lake on the bottom with you
Getting lost in the waves, let the world slip away
When nobody can find us, I don't wanna be safe
Leave it all behind us, make an escape
Tell me what am I feeling? Oh, it's hard to explain
Like underwater breathing, swimming in rain
Oh oh, all I really wanna do, do
Is fall a little deeper with you, you
Never come up
Breathing, breathing underwater
Weightless with every little kiss you steal, boy
You are making me feel, feel
Like I'm breathing
Breathing, breathing underwater
Wanna go to the edge, wanna dive in again
Here we are face to face all alone in this place
And it's finally coming down to you and me
Oh, oh, all I really wanna do, do
Is fall a little deeper with you, you
Never come up
Breathing, breathing underwater
Weightless with every little kiss you steal, boy
You are making me feel, feel

Like I'm breathing
Breathing, breathing underwater
Oh, oh, all I really wanna do, do
Is fall a little deeper with you, you
Never come up
Breathing, breathing underwater
Weightless with every little kiss you steal, boy
You are making me feel, feel
Like I'm breathing
Breathing, breathing underwater
Breathing under
Breathing underwater
Breathing underwater
