

No Other

Skye

Take my hand, come with me
See what we can find
Can't go wrong, guarantee
I will ease your mind You can stand or run with me
Leave it all behind
Just one day
I can make it better All I want, all I need
All I want, all I need
No other love, just you
No other love than you If you can, lay with me
Count the stars at night
I don't know much astrology
For you, they shine so bright Make a plan, stay with me
It could be so right
Just one day
I can make it better All I want, all I need
All I want, all I need
No other love, just you
No other love than you
No other love, just you
No other love than you No other love, just you
No other love than you
No other love, just you
No greater love than you
