

Put A Donk On It

The Blackout Crew

Yeah, yeah it's sick that, yeah that's good.
Wait hold on a minute, pull it up, stop.
You know what you wanna do with that right,
You wanna put a bangin' donk on it!

Yeah, yeah, yeah that's sick.
That is sick!
I can definitely drop to that one,
All we need now is like a hook line.
You know what I've got actually the perfect one.

Baseline! (Ah wicked!)
Put a donk on it.

Covers goin' sick tonight,
I'm like superman without kryptonite,
Phat as hell without cellulite,
And I look well sick in a U.V light,
Speakin' of sick that's me on the mic,
And if you don't like it get on ya bike,

Pack ya bags and get out my sight,
Otherwise its left right left goodnight,

Mic controller,
Lyric amova,
Rhymes that I'm comin' so quick like a soldier,
So ya better know my name is Cover,
If you wanna test me ya better not go there,
If you go there ya gonna get messed up,
And have a face on you like a broken clock,
As I'm comin' you better get runnin',
You better get gone or your gonna get dun in.

I'm back, with professional status,
The greatest M-C that's likely to make this,
Take this mic and use it against yuz,
Other M-C's just ain't the same as,
This kids been livin' the dream,
Been glued to the mic since I was 13,
Get in my way and you will start see,
What life is like on a life support machine.

Thou shall not mess with this kid
A twisted misfit who joined the hit list
Its simple
A baby born gifted nothing but lyrics when pens are lifted
Raw talent makes me so sickness
Rhyming ability o so decievein'
This recipe for your evenin'
Dowie mc's inside he ain't leavin'

Action is my distraction,
Reaction is interaction,
Clearly, dearly, really, see
This M-C may legally,
Committed never districted,
Convicted never restricted,
Respected hating the quiet,
Inspected making the riot,
Shirty, flirty, dirty, G
Pouty, louty, shout Z
May Kay is observent,
Making the nation my servant,
So rent a venger surrender
The manly family not tender
What In Manchester forever
Insult us ill ever

Its time for me to take this livin the tide
To the next places dreams are made
Just listen
When the music plays
I got rhymes to spit and no time to waste
But please believe
What you see could be the best rhying ablity you've seen
Ive prove that this guy can mc
(By showing how Rapid rhymes to the beat)
What you witness while I do this
Ill prove that great mc's exist
I insist
That this you don't miss
Blackout business at the best
Now there's no rest
Back on set
The rapid M-C live and direct
Put up the volume just a little bit
Gimme the beat and put a donk on it

Baseline!

Whoa whoa whoa whoa
Wait a minute Wait a minute
What you doin goin to chours with out my bit

Isn't it strange
How some of them closest people change
You get so high you cant even arrange
A good night out

Hey (Hey)
There's no need for this
Feels like I known ya since we was kids
Just think how it is when we drop the sickness
Like bids of a feather and you don't wanna miss
Cos everywhere we go were rockin' it
Nobody good enough stopping it
So when we hit the chart where toppin' it
So get on ya feet and put a donk on it
