Sunburn

Sandwich

Here she comes
Coming out of the water
Here she comes
Coming straight at me
Here she comes
Coming out of the water
Here she comes
Summer refugeeI just wanna be on the beachHere she comes
Golden island senorita
Here she comes
Slomo freeze the frameHere she comes
Golden island senorita
Here she comes
Do you know her name?I just wanna be on the beachI need to get away from the city
I need to get away from the work
I need to get away from the traffic
I need to get away
Got to get awayI just wanna be on the beach
