

Sunburn

Sandwich

Here she comes
Coming out of the water
Here she comes
Coming straight at me
Here she comes
Coming out of the water
Here she comes
Summer refugee I just wanna be on the beach Here she comes
Golden island seniorita
Here she comes
Slomo freeze the frame Here she comes
Golden island seniorita
Here she comes
Do you know her name? I just wanna be on the beach I need to get away from the city
I need to get away from the work
I need to get away from the traffic
I need to get away
Got to get away I just wanna be on the beach
