Hurt You So Bad

Crazy Town

Now let me state it for the record
I'm jaded but when you looked at me
I couldn't escape it
I really hate it when I'm out of control
But baby after the show
My mind just wouldn't let go
Tell me was it a hallucination
That made me feel so alone
And even though I have never met you before
I can't get you out of my head
Now I'm pouring out my heart for you

[Chorus]
I never meant to hurt you so bad
I'm just trying to get over you
I hope you never meant to hurt me so bad
Don't you feel the same way too

So now I sit and think of what I can say
When you look at me to re-ignite the connection
I'm gonna take you to a place beyond time
Somewhere that we've never been
Someplace that I couldn't find
Tell me if you're feeling my addiction
Without you I just can't disguise
How much I need to see your face one more time
I can't get you out of my head
Now I'm pouring out my heart for you

[Chorus]
