

# Great Escape

TINI

Easy come easy go for a minute  
I can't keep my hands off you  
You're a million dollar bill don't forget it  
I wanna spend my time on you And I been wondering  
From morning to night  
Stuck in delirium  
I'm losing my mind  
Do you feel it?  
Do you feel it?  
Feels so real, real, real You're my great escape  
Feels too good to give away  
And with every breath I take  
I can't help myself, I can't help myself  
You're my great escape  
I won't let you get away  
And with every breath I take  
I can't help myself, I can't help myself  
Ohhh ohh  
Wide awake wanna stay tunnel vision Falling for the sweetest sin  
I wanna taste everything when we're kissing  
I love it when we're skin to skin  
And I been wondering  
From morning to night  
Stuck in delirium  
I'm losing my mind  
Do you feel it?  
Do you feel it?  
Feels so real, real, real You're my great escape  
Feels too good to give away  
And with every breath I take  
I can't help myself, I can't help myself  
You're my great escape  
I won't let you get away  
And with every breath I take  
I can't help myself, I can't help myself  
Ohhh ohh  
I'll be running, I'll be running, I'll be running  
I'll be running, I'll be running, I'll be running  
You're my great escape

Feels too good to give away  
And with every breath I take  
I can't help myself, I can't help myself  
You're my great escape (you're my great escape)  
I won't let you get away  
And with every breath I take  
I can't help myself, I can't help myself  
Ohhh ohh  
I'll be running, I'll be running, I'll be running  
I'll be running, I'll be running, I'll be running
