My Boo

Jesca Hoop

In my chest
I have a cage
Wrapped with a golden wreath
In the cage
I have a a bird
Can't present it to give it
For the moment
You return to me
In the bird
There's a heart
Keeps surrender her feathers
Int he heart
There's the song
It makes me feel like we're together
For the moment
We're togetherMy boo
My boo
My boo
My booIn the song
There's a flame
Burning the length of a candle
In the flame
There's wish
Soon to be holding my hand
In the moment
You return to me
In my hand
There's a love
Like a long awaited letter
In the love
There's a road
One that you and I walk together
In the moment
You return to meMy boo
My boo
My boo
My boo
My boo
My booIn this darkened heart of mine

Your love shined a light for me
When you're gone
In pain and all
And write this song for us all to know
Don't go
And don't go
Don't goDown the road
There's a house
Under a milkyway sky
In the house
There's a room
Where I will wait through the long night
For the moment
You will return to me
In the room
There's a bed
Under a milky roof of daisies
In the bed
Brand new boo
Careful to not wake the baby
In the moment
You return to meMy boo
My boo
My boo
My boo
My boo
My boo
My boo
My boo
