

# We In This Bitch

Iggy Azalea

Advisory - the following lyrics contain explicit language:

Right, Iggy back no playtime  
I just gave y'all some break time to miss me  
So stressed on what's next  
My last little bit of success ain't even hit me  
So keep it light on the advice  
Look at us, we must be doing something right clearly  
In convo I don't talk to too many  
I just talk to the fans in the songs cause y'all feel me  
Now let's reflect on what we left on New Classic  
I overstepped what was expected, I blew past it  
So best bet is respect my perspective  
Or go get your sight checked for new glasses  
The fact is you combine the stats with  
The history I made, the message should be established  
I guess what I'm explaining in laymen's  
Is ain't nothin' about miss Azalea average  
Now we in this bitch  
Admit it get borin' with no me in this bitch  
Now we in this bitch  
What's a world with no I-G-G in this bitch?  
Now we in this bitch  
Admit it get borin' with no me in this bitch  
Now we in this bitch  
What's a world with no I-G-G in this bitch?  
Unpolished product of my environment  
Tryna get the same type love and respect as peers I be rhymin' with  
But everything is so one-sided, divided and biased  
That I can't get a fair judge panel not in the slightest bit  
In light of this, I had to write a hit to get this type of chip  
Ridin' dick won't get me nowhere and I ain't that type of chick  
That's so unladylike 'specially knowin' they be like  
"Iggy this and Iggy that" long as you say it, say it right  
Right, they might be playin' but Iggy ain't  
'Til Iggy faint, I just wanna fill this Iggy bank  
See I emerged from the smoke without a smudge on me

So back up off of me unless you got some love for me, right  
Even with my back against the wall  
I still don't know fear and won't shed a tear  
Cause when I think back, I've seen it all  
And everything that ain't stopped me got me here so  
Now we in this bitch  
Admit it get borin' with no me in this bitch  
Now we in this bitch  
What's a world with no I-G-G in this bitch?  
Now we in this bitch  
Admit it get borin' with no me in this bitch  
Now we in this bitch  
What's a world with no I-G-G in this bitch?  
Look in my eyes and see what I see  
You know that nothin' happenin' surprise me  
It's like I seen this before  
This is everything I was dreaming for  
Relax your mind let ya conscious free  
I got expensive taste and I ain't waiving the fee, look  
It's like I seen this before  
Life is now everything I dreamed and more  
And more, life is now everything I dreamed and more  
And more, life is now everything I dreamed  
Even with my  
back against the wall  
I still don't know fear and won't shed a tear  
Cause when I think back, I've seen it all  
And everything that ain't stopped me got me here so  
Now we in this bitch  
Admit it get borin' with no me in this bitch  
Now we in this bitch  
What's a world with no I-G-G in this bitch?  
Now we in this bitch  
Admit it get borin' with no me in this bitch  
Now we in this bitch  
What's a world with no I-G-G in this bitch?  
Now we in this bitch  
Admit it get borin' with no me in this bitch  
Now we in this bitch  
What's a world with no I-G-G in this bitch?
