

# Rain Down

## Lola's Riot

[Verse 1]

Rain down

The room feels so cold now

We both have been left out

Our time flies away

[Verse 2]

Rain down

There's no one to blame now

I feel no more shame

We're falling again

[Chorus]

Let me dream with you tonight

There is no one left to fight

Let me dream with you tonight

[Instrumental]

[Bridge]

I will close my eyes tonight

I will close my eyes tonight, tonight

Tonight, tonight, tonight, tonight, tonight

Tonight, tonight

I will close my eyes tonight

[Chorus]

Let me dream with you tonight

There is no one left to fight

Let me dream with you tonight
