

phonography

ontol

We're not so different you and me

'Cause we both share our share of obscenities

And everybody's got some freaky tendencies

Hidden or admitted 'cause we all got needsAnd I make no apologies, I'm into phonography

And I like my bluetooth buttons comin' loose

I need my hands free then I let my mind roam

Playing with my ringtone

He got service, I got service, baby, we can talk all night

(Go)Let's talk about biology

Make believe you're next to me

Phonography, phonography

Talk that sexy talk to meBetter make sure that the line is clean

Keep it confidential, you and me

Phonography, phonography

Dirty talking, call it phonography

(Hey)I can final all your commands

But there will be no talk of adding you to my plans

I'll keep you connected long as you understand

That's how we should keep it Mister Telephone ManAnd I make no apologies, I'm into phonography

And I like my bluetooth buttons comin' loose

I need my hands free then I let my mind roam

Playing with my ringtone

He got service, I got service, baby, we can talk all night

(Go)Let's talk about biology

Make believe you're next to me

Phonography, phonography

Talk that sexy talk to meBetter make sure that the line is clean

Keep it confidential, you and me

Phonography, phonography

Dirty talking, call it phonography

(Hey)Baby, if you're not alone

Take me off speakerphone

What I'm 'bout to say right here

Is just for your ears to hearIf you need to hit me back, hit me back

I got a star 69 for that, for that

(Go)Let's talk about biology

Make believe you're next to me

Phonography, phonography

Talk that sexy talk to meBetter make sure that the line is clean

Keep it confidential, you and me
Phonography, phonography
Dirty talking, call it phonography
(Hey)Phonography, phonography
Go
