True Lies

Mekong Delta

Hello, people, this is Jason back again on channel 5, here are the news:
Mr. President declared his mind for peace and admitted the Contra's support
..All we need is economical development!
A Congress member said: "He's wise..."
All I hear is lies (Guns for freedom)
But they're true lies
We are god damn manipulated
We are so guilty at their truth
It's our duty to be true to ourselves
They move the mountains, they force nature on it's knees
And they are your personal gods
Paper's patient, you can print the way you want it
Black on white - the reborn truth
There's danger in their speech, born from unholy greed
Their lies made them believe in it
