

# Little Star of Bethlehem

**Olivia Newton-John**

Little star of Bethlehem, perfect as a pearl  
Waiting for our eyes to turn and our faith to unfurl  
How I pray that You will cast Your light upon the world  
Shine on flame of peace  
Flame of hope, oh, help us believe  
Those who wait with hungry hearts clinging to despair  
Those whose souls are bound in chains, the lonely everywhere  
Show them that we hear their cry, show them that we care  
Shine on flame of peace  
Flame of hope, oh, help us believe  
From the west to the east  
Shine on us, we shall be released
