All Over The World

Daagard & Morane

With a pet at my side
God in the sky
Snow falling down
Freeze my body to the ground
I can't ride
But one more time
I will ride
All over the world
Washed over the side
Top of the sky
Slow diver down
Two feet land on a different fround
You can't live easily
You can't even speak
But all of them speak
All over the world
I will meet you over there
I am going to meet you over there
Washed over the side
Top of the sky
Slow diver down
Two feet land on a different ground
You can't live easily
You can't even speak
Fish all of them speak
All over the world
A plain with no herd
Not even a bird
When one side is hot
The other side of the moon is not
It's just like a ride
Maybe some time
They'll make it a ride
All over the world
I will meet you over there
I am going to meet you over there
Time is an arrangement
Time is an arranger
I am a derangement

All my thoughts
All I am are my thoughts
All my thoughts
I am all what I'm taught
Better call the ranger
Got a train derailments
Better call the ranger
What I'm taught
All I am are my thoughts
All my thoughts
All I am are my thoughts
What I'm not
