

1986

Nostradameus

You'll never ever notice
What soon will be coming
Coming for youI'll never forget 'bout
What happened that dayLike always, you treated me
 Like I was nothing
 Nothing at allI'll show you just what
Has become of meYou say you never meant to
 Make me feel that way
 But I know you did
But still I'm careful what I sayRevenge is mine
 Even if you think
 That I have already lost
This battle and this warRevenge is mine
 The future won't be yours
 And you do not even know
When I'll comeYou robbed me, took my heart
 And my soul and my body
 You took everything
But I'm back now and I'm stronger
Than ever beforeYou say you never meant to
 Make me feel that way
 But I know you did
But still I'm careful what I sayRevenge is mine
 Even if you think
 That I have already lost
This battle and this warRevenge is mine
 The future won't be yours
 And you do not even know
When I'll comeYou say you never meant to
 Make me feel that way
 But I know you did
But still I'm careful what I sayRevenge is mine
 Even if you think
 That I have already lost
This battle and this warRevenge is mine
 The future won't be yours
 And you do not even know
When I'll comeRevenge is mine
 Even if you think

That I have already lost
This battle and this war
Revenge is mine
The future won't be yours
And you do not even know
When I'll come
