

# More to Love

[Amy Lee](#)

Never been a fan of the light  
Embracing darkness helped me feel alive  
Drawing constellations in the sky  
Worlds of perfect love within your eyes I'll wait forever for your love  
Make believe that we're the only ones  
Holding on to whispers of your love  
All we are is a dream beyond the dawn Open my eyes, teach me to cry  
Open up my heart, and i'll learn to fly  
I wont regret what love gives me now  
I know someday that I will learn how (to) Wait forever for your love  
Make believe that we're the only ones  
I'm holding on to whispers of your love  
All we are is a dream beyond the dawn Steal my heart and throw away the key  
Deep inside your love is where i'll be  
I'll wait forever for your love  
Make believe that we're the only ones  
I'm holding on to whispers of your love  
All we are is a dream beyond the dawn  
So i'll wait forever for your love  
Make believe that we're the only ones  
I'm holding on to whispers of your love  
All we are is a dream beyond the dawn  
All we are is a dream beyond the dawn  
All we are is a dream  
Beyond the dawn
