Sell Your Lies

Street Dogs

Our beloved democracy is now six feet under, yes it is
Cause you got perception managers selling war blunder, they do
There is not an outlet they can't reach
Follow along just like good sheep
They alter, manipulate info that you readSell it on the TV, they sell it to the press
Sell it to the right wing, sell it to the left
Make us believe what they say is the truth
Mr. Rendon, fuck you for selling your lies
For selling your liesYeah I know that it is really nothing so new
Follow along with the government red, white, and blue
Better wake up, it's running out of time
They control every single fucking dime
The N.S.A. is watching everything you doSell it on the TV, they sell it to the press
Sell it to the right wing, sell it to the left
Make us believe what they say is the truth
Mr. Rendon, fuck you for selling your lies
For selling your lies
