

Love the Lonely Out of You

Brothers Osborne

I can tell that you're lonely
So pour it all out on me
'Cause I have been lonely too
That's a heartache you're drinking
And I can feel what you're thinking
Let's do what the lonely do

Your lips, your shoulders and my fingertips
Running through your hair just like this
Whatever it takes to make your heart forget
I'll do
Baby, let me love the lonely out of you

Take everything that makes you sad
Let it out and leave it in the past
You don't need that for what I've got in mind
Wrap those arms around me
Close your eyes and baby you'll see
It ain't that hard to leave it all behind
