

# Medicate

## Ohmtrix

I've been lying awake at night  
I've been hoping that I'm alright  
I've been winding myself too tight  
Wondering if I will sleep tonight  
Never thought things would get like this  
Always hoping that they'd work out  
Still ingesting the wrong amount  
Now I seem to be filled with doubt  
I cannot stop this ride  
I'm growing cold inside  
I shouldn't let it slide  
Will sickness be mine  
This should not be my weight to bear  
Go on acting like I don't care  
Stop this high, I wouldn't dare  
I have earned and deserve my share  
Things like this happen every day  
While I'm in there I feel okay  
But you say I should get away  
Let me go for just one more day  
I cannot stop this ride  
I'm growing cold inside  
I shouldn't let it slide  
Will sickness be mine  
I cannot stop this ride  
I'm growing cold inside  
I shouldn't let it slide  
Will sickness be mine  
I've got to medicate myself  
I'm not concerned about health  
It covers up what I've been dealt  
It seems the only way  
I've got to medicate myself  
It's been the only thing that helped  
Must cover up what I have felt  
It seems the only way  
I cannot stop this ride  
I'm growing cold inside  
I shouldn't let it slide  
Will sickness be mine  
I cannot stop this ride  
I'm growing cold inside  
I shouldn't let it slide  
Will sickness be mine  
Sickness is mine  
Sickness is mine  
Sickness is mine
