

Beneath You All the Way

I Was Totally Destroying It

Gnaw through wood and dirt
Subtract but don't revert either way
Don't go back either way
Gnash teeth and occupy
The lonely hours from time to time you despise
All those times you despise

Away, try to drive me away
Away, you can't drive me away
No way

Burn through what's gone wrong
Strip away the layers that don't belong
No they don't belong
Because I'll hang around like a year old stain
You can't erode the ground that wants to stay
Beneath you all the way

Away, try to drive me away
Away, you can't drive me away
Open up to what you find
My hands won't be tied today

Go, go, don't you look back
