

Amen

Sepultura

Forgive me Father, forgive me God
I know I've sinned with no remorse
Apocalyptic visions went through my head
Here today gone tomorrow, it's all insane I'm feeling sick, I'm feeling numb
The storm will come
In the name of God I'm the chosen one Terror raids the land
To ashes we'll be sent
In the name of God lives cast away Martyrdom of myself
Armageddon comes
In the name of God not one more dead Fire blasting, cutting edge
Children burn in flames
In the name of God we're going insane Die, die, die, die
Die, die, die, die Let us die
You don't realize
This is the time
God's sacrifice Leaving behind
Lessons in hate
In the name of God we're all dead Burn
