

Small Town Moon

[Regina Spektor](#)

I must've lived a thousand times
But every day begins the same
'Cause there's a small town in my mind
How can I leave without hurting everyone that made me?
How can I leave without hurting everyone that made me? Oh, baby, baby, it's all about the moon
I wish you wouldn't have broken my camera
'Cause we're gonna get real old real soon
Today we're younger than we ever gonna be
Today we're younger than we ever gonna be
Woo!
Today we're younger than we ever gonna be Stop, stop, what's the hurry?
Come on, baby, don't you worry, worry
Everybody not so nice, nice
Everybody not so nice, nice
Stop, stop, what's the hurry?
Come on, baby, don't you worry, worry
Everybody not so nice, nice
Everybody not so nice, nice Thought you ought to know by now
I thought you ought to know by now
Everybody not so nice, nice
Everybody not so nice, nice
