California

Dropa

I open my eyes to see her face
In a daze we engaged
Last night I slept about an hour
To fill her needs and desires
One more night in California
One more night with you
One more night
Ya she's alright
(She's alright)
One more night
(Yeah)
One more night in California
Dom dom dom, baby, one more night
Dom dom dom, baby, one more night
I need to catch a ride to the south side
I grabbed a patty and a shake
I felt the earthquake, I jumped in the cab for LAX
I flipped him a tip, hey man, then I split
One more night in California
One more night with you
One more night
But she's alright
She's alright
One more night
(Yeah)
One more night in California
Night in California
Night in California
Night in California
Dom dom dom, baby, one more night
Dom dom, baby, one more night
I opened my eyes to see her face
But she's alright
She's alright
One more night
(Yeah)
One night in California
She's alright
She's alright

One more night, yeah
One more night in California
Night in California
Night in California
Night in California
