

Pixels 2016 (feat. Susanne Louise)

Henrik SÃ|ter

We're taking over! Hoo oh oh oh...
It's an invasion of your celebration!
Taking over! Hoo oh oh oh...
We're taking over!

Get away or we will bite
No retreat, no defeat, no defeat
Pixels here, lets do this right! 3x
You better run and hide,
Its a freakin' genocide
We're going nation wide
Until the world is pixyfied!

(So lets get it on) on like Donkey Kong!
Clock is ticking time to play along game on!
Well turn you in to polygons,
Drop the bomb, hit alarm oh oh.!

We're taking over the galaxy!
Pixelfication in 3D!
Taking over the galaxy!
Pixels just landed, now its a fucking party!

We're taking over, over!
Taking over, over!
We're taking over the galaxy
Pixel just landed and, now it's a fucking party!

Hunt and eat
Piece by piece
Every single thing we meet!
No retreat, No defeat, no defeat

Divided we are weak,
United we're complete!
Here to kill some geeks
And were on a winning streak!

(So lets get it on) on like Donkey Kong!
Clock is ticking time to play along game on!

Well turn you in to polygons,
Drop the bomb, hit alarm oh oh.!
We're taking over the galaxy!
Pixelfication in 3D!
Taking over the galaxy!
Pixels just landed and, now its a fucking party!
We're taking over, over!
Taking over, over!
We're taking over the galaxy
Pixel just landed and, now it's a fucking party!
