Lies... broken dreams
Dismal past
is there more in life...
should you... know
Ending wars... ending pain
Ending of mankind is insane
and there's all these possibilities
some will fail and some will achieve
Even through in my youth
I didn't know but what can I do
and I may not ever see
In my pain, my suffering
Can not live for the rest of my life
DNR Do not resuscitate me...Life... lost unseen
behind the mask
and with the open arms will I grasp
Open doors... open minds...
Ending all the madness I hateAnd I may not ever see
In my pain, my misery
Can not live for the rest of my life
DNR Do not resuscitate me... DNR...Wings of sadness
hold my prayers
all this madness... will
end my fears
contempt in life
Conceptualize, wrong or right
The ending of life...
God save me now...Time... end it now
No going back
Can you see the light as you pass
Ending wars, ending pain...
Waited all my life to be savedAnd I will not ever see
All the hate and suffering
Can not live for the rest of my life
DNR Do not resuscitate me... DNR
