

Montage

Monofactory

The hours approaching, just give it your best
And you've got to reach your prime
That's when you need to put yourself to the test
And show us a passage of time We're gonna need a montage
(Montage)
Ooh it takes a montage
(Montage) Show a lot of things happening at once
Remind everyone of what's going on
(What's going on?)
And with every shot you show a little improvement
To show it all would take too long That's called a montage
(Montage)
Oh we want montage
(Montage) And anything that we want to go
From just a beginner to a pro
You need a montage
(Montage)
Even Rocky had a montage
(Montage) Montage
Montage Anything that we want to go
From just a beginner to a pro
You need a montage
(Montage)
Ooh it takes a montage
(Montage) Always fade out in a montage
If you fade out, it seems like more time
Has passed in a montage
Montage
