Missing You

The Mavericks

It hurts to be alone
But every day that you've been gone
I tell myself there'll be someone else
But that won't doEach night that passes by
I long to hold you tight
I can't let go, oh, don't you know
I'm missing youSometimes I fool myself and make believe
That when you're in his arms
You'll think of meThough you're not here with me
I still want what used to be
I need you so, oh, don't you know
I'm missing youSometimes I fool myself and make believe
That when you're in his arms
You'll think of meThough you're not here with me
I still want what used to be
I can't let go, oh, don't you know
I'm missing youI need you so, oh, don't you know
I'm missing you
Missing you
Missing you
