## **Missing You**

## **The Mavericks**

It hurts to be alone But every day that you've been gone I tell myself there'll be someone else But that won't doEach night that passes by I long to hold you tight I can't let go, oh, don't you know I'm missing youSometimes I fool myself and make believe That when you're in his arms You'll think of meThough you're not here with me I still want what used to be I need you so, oh, don't you know I'm missing youSometimes I fool myself and make believe That when you're in his arms You'll think of meThough you're not here with me I still want what used to be I can't let go, oh, don't you know I'm missing youI need you so, oh, don't you know I'm missing you Missing you Missing you
