

Never Mind

Four Star Mary

you could send me a saviour
that lives 'til the end of time
promise the heavens
but that only leaves me drytoo many saviours
fuck with mei won't die
i've never cried
but i needed more from you
i've found my life
without you nowand i'd never mind
i'm only half as blind
'cause i needed more
from youyou say my reflection
never fades from your eyes
could change my direction
but what i feel can't
disguise my reflectioncrushing mei won't die
i've never cried
but i needed more from you
i've found my life
without you nowand i'd never mind
i'm only half as blind
'cause i needed more
from you
