

## El Trono de Mexico

Mmm, mmm  
What do they see, looking at you  
Could they see a dare?  
Dazzling eyes and wondering minds  
Are hugging after you  
As you standing there as he steps your way  
Steps across the floor  
Coming onto you, here is what you do  
Do exactly what I say  
Lasting lady, show me what they really want  
Follow me  
See what they really want nasty, nasty, nasty, nasty  
And what they really need nasty, nasty, nasty, nasty  
Now listen to me say it, "Nasty, nasty, nasty, nasty"  
Now say it next to me, "Nasty, nasty, nasty, nasty"  
Listen up boys, you should know  
I don't believe you, well  
How to own you, they'll control your thoughts  
And lontour dreams  
As you standing there as he steps your way  
Steps across the floor  
Coming onto you, here is what you do  
Do exactly what I say  
Lasting lady, show me what they really want  
And follow me, my baby  
See what they really want nasty, nasty, nasty, nasty  
And what they really need nasty, nasty, nasty, nasty  
So listen to me say it, "Nasty, nasty, nasty, nasty"  
Now say it next to me, "Nasty, nasty, nasty, nasty"  
Baby feels so good, you cant let go  
Your body goes in overload  
You cannot hide the way you feel, it makes you feel  
It feels it feels to real  
See what they really want nasty, nasty, nasty, nasty  
And what they really need nasty, nasty, nasty, nasty  
Now listen to me say it, "Nasty, nasty, nasty, nasty"  
Now say it next to me, "Nasty, nasty, nasty, nasty"  
Lasting lady, show me what they really want  
And follow me my baby

Lasting lady, show me what they really want  
And follow me  
Lasting lady, show me what they really want  
And follow me  
Read on, come to me, if you really last  
Let me know who can go if you want  
Nasty, come on and say, "Nasty"  
Nasty, come on say, "Nasty"
