I See Only Sunshine

The Box Tops

I sat last night at midnight
Blinded by the daylight
Sitting at the window
Thinking about you and meI see our lives together
I see our love forever
I picture in my heart every night
How it's gonna beYea, Lord now
I see only sunshine
For you and me, for years to come, now
I can see it, can't you see it too?We can share the nighttime
'Til the morning's shine squints our eyes, now
Years of loving me
And years of loving only youI catch myself in daydreams
Thinkin' about the hard times we've seen
We've been through it
There ain't nothing but good times aheadI walk into walls, forget things
Forget too match my clothes, my ears ring
It circles in my head
Did you listen to what I said, now?Yeah Lord now
I see only sunshine
For you and me, for years to come, now
I can see it, can't you see it too?We can share the nighttime
'Til the morning's shine
