

Dreaming in the Day

[Aubrie Sellers](#)

Neither one of us got too much sleep
Now I'm running on fumes and kisses and
This smile on my face that'll last all week
I can't quit thinking bout you
Last night, no, it didn't stop with the sunshine
I find myself sitting at a green light with my mind
And that song playing
Got me dreaming in the day
Dreaming in the day Slow-burnin' candles and talkin' sweet
Losing track of time but it don't stop tickin'
Like I'm floating on a cloud a little south of Heaven
I ain't ever comin' down
Last night, no, it didn't stop with the sunshine
I find myself sitting at a green light with my mind
And that song playing
Got me dreaming in the day
Dreaming in the day Last night, no, it didn't stop with the sunshine
I find myself sitting at a green light with my mind
And that song playing
Last night, no, it didn't stop with the sunshine
I find myself sittin at a green light with my mind
And that song playing
Got me dreaming in the day
Dreaming in the day
Dreaming in the day
Dreaming in the day
