Weatherman

Hank Williams, Jr.

What is your forecast?
I need a major change
I can't ride out one more storm
Everything's been going wrongPlease tell me it's something in the ozone
Or is the atmospheric pressure just too strong?
I can't handle no more rainBecause I've had too many highs and too many lows
Too many storms and tornadoes
I need some blue skies and sunshine
I need a good forecast tonight'Cause I seen too many highs and too many lows
Too man storms and tornadoes
I need some blue skies and sunshine
I need a good forecast tonight
