Hopeless

The Trews

Celebrating childhood dreaming
Taking in these waterfalls
Before the world got so deceiving
Before you thought you knew it allThe beauty of this scene was hitting
By every year gone by
And now you're thinking love forbidding
When you can't even cryAt least there's hope
Hope until there's nowhere left to go
Hope until there's nowhere left to go, noHere you are on a break walk singing
Trying to miss as the world walks by
A full moon over red lights singing
To the clouds of a rusty skyNeverless visions, it makes no sense at all
All you are is another victim
Jumping in these waterfallsAnd there's no hope
Hope until there's nowhere left to go
Hope and now there's no time left to
Even let goCan't even let go
Can't even let go
Can't even let goOhh, until there's nowhere left to go
One day breathless you know
Leaves you naked and exposed
Ahh, yeahEver think that the sun's gonna rise
And the world's gonna spin and it makes it worse?Hope until there's nowhere left to go
Hope until there's no time left to
Even let goCan't even let go
Can't even let go
Can't even let goHope until there's nowhere left to go
Hope until there's nowhere left to go
Hope now there's nowhere left to go
