Maracas

Bachata Salvaje

I should have noticed that
one eye has gotten bigger
I only noticed when
Your chin had gotten thicker
You can not wait
When we had something to say
We've got a notice for a reason
And you will bring you back
But I will take you back
I'm taking you back
No one
No one
Can take you back
I should have noticed that
your mind was getting clearer
I would have noticed that
Cold summit drying nearer
You can not wait
When we had something to say
We've got a notice
And you will bring you nback
But i will take you back
I'm taking you back
No one
No one
Can take you back
Breathing x2
Come to the light
When we're both in time
Breathing
Let's just try and climb you might not like it when i call you on it
I got your backCome to the light
When we're both in time
Breathing
Let's just try and climb you might not like it when i call you on it
I got your backBreathing x2
