

# DDT

## Stylish Nonsense

I look at rappers with maximum equation  
X-ray vision invasion  
Rhyme connects perfects insects  
That crawl and try to bite my rhymes  
Pesticides I'm the double D combine the T  
That's DDT, A chemical more to better to burn  
Roaches, germs, mouse, lice  
Termites and percurious bugs Or try thugs who perpetrate  
Nothing within contaminate  
Got my gloves on  
So bring turtle doves on  
Watch me pluck 'em and pick 'em  
Stick 'em, kick 'em and vic 'em  
I see you're featherless  
You got the birdy disease Bite any rhymes that I have for ya  
The poison is bad for ya stupid  
You're equal measure to dirt dust grime and puss  
You're just a rappin' infection  
Dirtlizin' my section like a six-legga  
Ya betta' step off and walk ya pure roach
